

Joseph Krukowski

Full-Stack Web Developer

Work Experience

Independent Web Developer (May 2021 - Present)

Punchmark - Charlotte, NC

- IT Coordinator / Vendor Liaison (Nov. 2019 - May 2021)
 - Spearheaded the improvement of the Premium Vendor department, regarding various third-party inventory available for clients to include on their e-commerce website.
 - Developed a systematic approach for importing and updating a majority of outdated jewelry vendor catalogs.
 - Worked with brands like Rolex, Citizen, and Tacori to ensure their meticulous requirements could be met on our platform.
- Tech Support Representative / IT Coordinator (Aug. 2018 - Sep. 2019)
 - Diagnosed and resolved / delegated website issues involving our custom CMS platform or network configurations.
 - Prepared new and upgrading clients for their website 'launch', and assisted clients with making updates to their existing e-commerce websites.

Projects

Allstatemachinery.com

- Machinery Brokering / E-commerce website used to display inventory and attract potential customers.
- Built with PHP 7, jQuery, Bootstrap, and MySQL.

Fantasy Sports League Companion:

- Web-based software for fantasy leagues to use in conjunction with their main fantasy app. Provides robust instant messaging tool, and various modules for viewing information not available on their host site.
- Built with PHP 8, jQuery, MySQL, and internal API.
